### HPLC WEIGHT-MANAGEMENT SHAKE MIX

**vanilla**  
ARTIFICIALLY FLAVORED

14 PACKETS  
.98 oz (28g) / NET WT 13.8 oz (392 g)

**Directions:** 1) Empty contents of one packet into a glass.  
2) Add approximately 6-8 fl. oz. of cold water.  
3) Stir until dissolved.

Would you like to turn up the fat-burning flames on your metabolism? Or feel full, satisfied and energized while losing weight—fast? Introducing Herbalife's breakthrough Thermojetics<sup>®</sup> Shake, which is part of a diet that is high in protein and low in carbohydrates. This scientifically advanced formula is supercharged with essential vitamins, minerals and other nutrients which work together to help you reach your weight-loss goal faster yet safely. What makes Herbalife's Thermojetics<sup>®</sup> Shake so special is its unique combination of effective ingredients, which are part of a diet high in protein and low in carbohydrates. It's rare to sit down and eat a meal or grab a snack that doesn't contain carbohydrates. If you eat too many and exceed your body's energy needs, those carbohydrates will be stored as fat. However, adequate amounts of protein actually favor weight-loss and protect lean body tissue, such as muscle. By eating more protein and less carbohydrate, the body will burn its fat stores as fuel and one will lose weight. With Herbalife's great-tasting shakes, one can do just that—anytime, anywhere. Convenient-to-use. Simply mix one single-serving packet with six to eight fl. oz. of cold water and stir until dissolved. Each serving contains only 110 calories and three grams of fat. For a deliciously satisfying treat, use less liquid and turn your shake into a creamy pudding that's so good you'll forget you're dieting!

**Notice:** For weight reduction, use only as directed in Herbalife's complete HPLC Diet Program. Do not use in diets supplying less than 400 calories per day without medical supervision.

Herbalife products are available only through Herbalife Independent Distributors.
